Index	41

Chapter 1

Namespace Index

1.1 Packages

Here are the packages with brief descriptions (if available):

bankapp	9
bankapp.client	9
bankapp.server	9

Chapter 2

Hierarchical Index

2.1 Class Hierarchy

This inheritance list is sorted roughly, but not completely, alphabetically:

bankapp.server.Account	11
bankapp.server.Admin	12
bankapp.server.User	31
bankapp.server.bankAccount	13
bankapp.server.bankAccountTest	15
bankapp.client.bankClient	15
bankapp.client.bankController	16
bankapp.server.bankServer	18
bankapp.server.BDTest	19
bankapp.server.IbankDAO	22
bankapp.server.bankDAO	17
bankapp.server.Performance	26
bankapp.server.Report	26
bankapp.server.ReportTest	29
bankapp.client.RMIServiceLocator	29
bankapp.server.ServerTest	30
bankapp.server.UserTest	33
Remote	
bankapp.server.IBManager	24
bankapp.server.BManager	20
UnicastRemoteObject	
bankapp.server.BManager	20

Chapter 3

Class Index

3.1 Class List

Here are the classes, structs, unions and interfaces with brief descriptions:

bankapp.server.Account	11
bankapp.server.Admin	12
bankapp.server.bankAccount	13
bankapp.server.bankAccountTest	15
bankapp.client.bankClient	15
bankapp.client.bankController	16
bankapp.server.bankDAO	17
bankapp.server.bankServer	18
bankapp.server.BDTest	19
bankapp.server.BManager	20
bankapp.server.IbankDAO	22
bankapp.server.IBManager	24
bankapp.server.Performance	26
bankapp.server.Report	26
bankapp.server.ReportTest	29
bankapp.client.RMIServiceLocator	29
bankapp.server.ServerTest	30
bankapp.server.User	31
bankapp.server.UserTest	33

Chapter 4

File Index

4.1 File List

Here is a list of all files with brief descriptions:

src/main/java/bankapp/client/ BankClient.java	35
src/main/java/bankapp/client/ BankController.java	35
src/main/java/bankapp/client/ RMIServiceLocator.java	35
src/main/java/bankapp/server/ Account.java	36
src/main/java/bankapp/server/ Admin.java	36
src/main/java/bankapp/server/ bankAccount.java	36
src/main/java/bankapp/server/ BankDAO.java	36
src/main/java/bankapp/server/ BankServer.java	37
src/main/java/bankapp/server/ BManager.java	37
src/main/java/bankapp/server/ IBankDAO.java	37
src/main/java/bankapp/server/ IBManager.java	37
src/main/java/bankapp/server/ Report.java	38
src/main/java/bankapp/server/ User.java	38
src/test/java/bankapp/server/ bankAccountTest.java	38
src/test/java/bankapp/server/ BDTest.java	38
src/test/java/bankapp/server/ Performance.java	39
src/test/java/bankapp/server/ ReportTest.java	39
src/test/java/bankapp/server/ ServerTest.java	39
src/test/java/bankapp/server/ UserTest.java	39

Chapter 5

Namespace Documentation

5.1 Package bankapp

Packages

- package [client](#)
- package [server](#)

5.2 Package bankapp.client

Classes

- class [bankClient](#)
- class [bankController](#)
- class [RMIServiceLocator](#)

5.3 Package bankapp.server

Classes

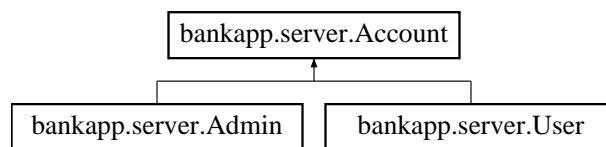

- class [Account](#)
- class [Admin](#)
- class [bankAccount](#)
- class [bankAccountTest](#)
- class [bankDAO](#)
- class [bankServer](#)
- class [BDTest](#)
- class [BManager](#)
- interface [IbankDAO](#)
- interface [IBManager](#)
- class [Performance](#)
- class [Report](#)
- class [ReportTest](#)
- class [ServerTest](#)
- class [User](#)
- class [UserTest](#)

Chapter 6

Class Documentation

6.1 bankapp.server.Account Class Reference

Inheritance diagram for bankapp.server.Account:

Public Member Functions

- [Account](#) (String username, String pass)
- String [getUsername](#) ()
- String [getPass](#) ()
- void [setPass](#) (String pass)
- String [toString](#) ()

6.1.1 Detailed Description

Definition at line 9 of file Account.java.

6.1.2 Constructor & Destructor Documentation

6.1.2.1 Account()

```
bankapp.server.Account.Account (
    String username,
    String pass )
```

Definition at line 13 of file Account.java.

6.1.3 Member Function Documentation

6.1.3.1 `getPass()`

```
String bankapp.server.Account.getPass ( )
```

Definition at line 20 of file Account.java.

6.1.3.2 `getUsername()`

```
String bankapp.server.Account.getUsername ( )
```

Definition at line 17 of file Account.java.

6.1.3.3 `setPass()`

```
void bankapp.server.Account.setPass (
    String pass )
```

Definition at line 23 of file Account.java.

6.1.3.4 `toString()`

```
String bankapp.server.Account.toString ( )
```

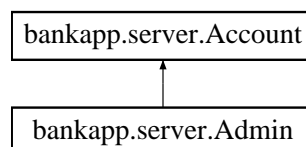

Definition at line 26 of file Account.java.

The documentation for this class was generated from the following file:

- [src/main/java/bankapp/server/Account.java](#)

6.2 `bankapp.server.Admin` Class Reference

Inheritance diagram for `bankapp.server.Admin`:

Public Member Functions

- [Admin](#) (String username, String pass)

6.2.1 Detailed Description

Definition at line 7 of file Admin.java.

6.2.2 Constructor & Destructor Documentation

6.2.2.1 Admin()

```
bankapp.server.Admin.Admin (
    String username,
    String pass )
```

Definition at line 8 of file Admin.java.

The documentation for this class was generated from the following file:

- src/main/java/bankapp/server/[Admin.java](#)

6.3 bankapp.server.bankAccount Class Reference

Public Member Functions

- [bankAccount](#) ()
- int [getnumAcc](#) ()
- long [getmoney](#) ()
- void [addmoney](#) (long money)
- void [deducemoney](#) (long money)

6.3.1 Detailed Description

Definition at line 6 of file bankAccount.java.

6.3.2 Constructor & Destructor Documentation

6.3.2.1 `bankAccount()`

```
bankapp.server.bankAccount.bankAccount ( )
```

Definition at line 11 of file `bankAccount.java`.

6.3.3 Member Function Documentation

6.3.3.1 `addmoney()`

```
void bankapp.server.bankAccount.addmoney (
    long money )
```

Definition at line 22 of file `bankAccount.java`.

6.3.3.2 `deducemoney()`

```
void bankapp.server.bankAccount.deducemoney (
    long money )
```

Definition at line 25 of file `bankAccount.java`.

6.3.3.3 `getmoney()`

```
long bankapp.server.bankAccount.getmoney ( )
```

Definition at line 19 of file `bankAccount.java`.

6.3.3.4 `getnumAcc()`

```
int bankapp.server.bankAccount.getnumAcc ( )
```

Definition at line 16 of file `bankAccount.java`.

The documentation for this class was generated from the following file:

- `src/main/java/bankapp/server/bankAccount.java`

6.4 bankapp.server.bankAccountTest Class Reference

Public Member Functions

- void [validAccount](#) ()

6.4.1 Detailed Description

Definition at line 9 of file bankAccountTest.java.

6.4.2 Member Function Documentation

6.4.2.1 validAccount()

```
void bankapp.server.bankAccountTest.validAccount ( )
```

Definition at line 12 of file bankAccountTest.java.

The documentation for this class was generated from the following file:

- [src/test/java/bankapp/server/bankAccountTest.java](#)

6.5 bankapp.client.bankClient Class Reference

Static Public Member Functions

- static void [main](#) (String[] args)

6.5.1 Detailed Description

Definition at line 5 of file BankClient.java.

6.5.2 Member Function Documentation

6.5.2.1 main()

```
static void bankapp.client.bankClient.main (
    String [] args ) [static]
```

Definition at line 8 of file BankClient.java.

The documentation for this class was generated from the following file:

- [src/main/java/bankapp/client/BankClient.java](#)

6.6 bankapp.client.bankController Class Reference

Public Member Functions

- [bankController](#) (String ip, String port, String serviceName)
- boolean [login](#) (String user, String pass)

6.6.1 Detailed Description

Definition at line 3 of file BankController.java.

6.6.2 Constructor & Destructor Documentation

6.6.2.1 bankController()

```
bankapp.client.bankController.bankController (
    String ip,
    String port,
    String serviceName )
```

Definition at line 7 of file BankController.java.

6.6.3 Member Function Documentation

6.6.3.1 login()

```
boolean bankapp.client.bankController.login (
    String user,
    String pass )
```

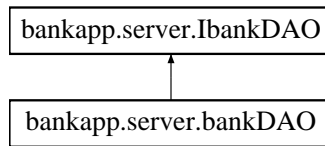

Definition at line 14 of file BankController.java.

The documentation for this class was generated from the following file:

- [src/main/java/bankapp/client/BankController.java](#)

6.7 bankapp.server.bankDAO Class Reference

Inheritance diagram for bankapp.server.bankDAO:

Public Member Functions

- [bankDAO](#) ()
- [Account](#) [getAccount](#) (String username)
- void [storeAccount](#) ([Account](#) acc)
- void [storeReport](#) ([Report](#) rep)
- void [deleteAccount](#) (String username)

6.7.1 Detailed Description

Definition at line 13 of file BankDAO.java.

6.7.2 Constructor & Destructor Documentation

6.7.2.1 bankDAO()

```
bankapp.server.bankDAO.bankDAO ( )
```

Definition at line 15 of file BankDAO.java.

6.7.3 Member Function Documentation

6.7.3.1 deleteAccount()

```
void bankapp.server.bankDAO.deleteAccount (
    String username )
```

Implements [bankapp.server.IbankDAO](#).

Definition at line 87 of file BankDAO.java.

6.7.3.2 `getAccount()`

```
Account bankapp.server.bankDAO.getAccount (
    String username )
```

Implements [bankapp.server.IbankDAO](#).

Definition at line 21 of file BankDAO.java.

6.7.3.3 `storeAccount()`

```
void bankapp.server.bankDAO.storeAccount (
    Account acc )
```

Implements [bankapp.server.IbankDAO](#).

Definition at line 46 of file BankDAO.java.

6.7.3.4 `storeReport()`

```
void bankapp.server.bankDAO.storeReport (
    Report rep )
```

Implements [bankapp.server.IbankDAO](#).

Definition at line 66 of file BankDAO.java.

The documentation for this class was generated from the following file:

- `src/main/java/bankapp/server/BankDAO.java`

6.8 `bankapp.server.bankServer` Class Reference

Static Public Member Functions

- static void `main` (String args[])

6.8.1 Detailed Description

Definition at line 6 of file BankServer.java.

6.8.2 Member Function Documentation

6.8.2.1 main()

```
static void bankapp.server.bankServer.main (
    String args[] ) [static]
```

Definition at line 7 of file BankServer.java.

The documentation for this class was generated from the following file:

- src/main/java/bankapp/server/[BankServer.java](#)

6.9 bankapp.server.BDTest Class Reference

Public Member Functions

- void [setup](#) ()
- void [validBD](#) ()

6.9.1 Detailed Description

Definition at line 8 of file BDTest.java.

6.9.2 Member Function Documentation

6.9.2.1 setup()

```
void bankapp.server.BDTest.setup ( )
```

Definition at line 11 of file BDTest.java.

6.9.2.2 validBD()

```
void bankapp.server.BDTest.validBD ( )
```

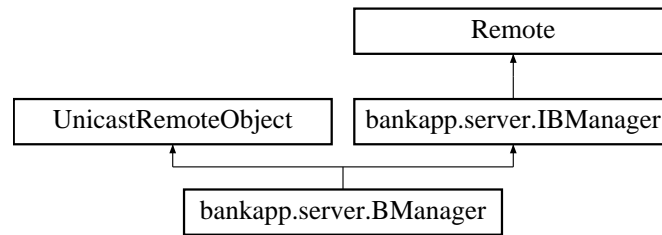

Definition at line 16 of file BDTest.java.

The documentation for this class was generated from the following file:

- src/test/java/bankapp/server/[BDTest.java](#)

6.10 bankapp.server.BManager Class Reference

Inheritance diagram for bankapp.server.BManager:

Public Member Functions

- [BManager](#) (String serverAddress, String port0, String servName) throws RemoteException
- char [login](#) (String username, String pass) throws RemoteException
- void [transaction](#) (String user1, String user2, long money, String accNum1, String accNum2) throws RemoteException
- int [createBankAccount](#) (String user) throws RemoteException
- void [addFunds](#) (String user, String accNum, long money) throws RemoteException
- void [deleteBankAccount](#) (String user, String accNum1, String accNum2) throws RemoteException
- void [deleteAccount](#) (String user) throws RemoteException
- void [createUser](#) (String username, String pass, String email) throws RemoteException

6.10.1 Detailed Description

Definition at line 8 of file BManager.java.

6.10.2 Constructor & Destructor Documentation

6.10.2.1 BManager()

```

bankapp.server.BManager.BManager (
    String serverAddress,
    String port0,
    String servName ) throws RemoteException
  
```

Definition at line 22 of file BManager.java.

6.10.3 Member Function Documentation

6.10.3.1 addFunds()

```
void bankapp.server.BManager.addFunds (
    String user,
    String accNum,
    long money ) throws RemoteException
```

Implements [bankapp.server.IBManager](#).

Definition at line 79 of file BManager.java.

6.10.3.2 createBankAccount()

```
int bankapp.server.BManager.createBankAccount (
    String user ) throws RemoteException
```

Implements [bankapp.server.IBManager](#).

Definition at line 70 of file BManager.java.

6.10.3.3 createUser()

```
void bankapp.server.BManager.createUser (
    String username,
    String pass,
    String email ) throws RemoteException
```

Implements [bankapp.server.IBManager](#).

Definition at line 103 of file BManager.java.

6.10.3.4 deleteAccount()

```
void bankapp.server.BManager.deleteAccount (
    String user ) throws RemoteException
```

Implements [bankapp.server.IBManager](#).

Definition at line 97 of file BManager.java.

6.10.3.5 deleteBankAccount()

```
void bankapp.server.BManager.deleteBankAccount (
    String user,
    String accNum1,
    String accNum2 ) throws RemoteException
```

Implements [bankapp.server.IBManager](#).

Definition at line 88 of file BManager.java.

6.10.3.6 login()

```
char bankapp.server.BManager.login (
    String username,
    String pass ) throws RemoteException
```

Implements [bankapp.server.IBManager](#).

Definition at line 30 of file BManager.java.

6.10.3.7 transaction()

```
void bankapp.server.BManager.transaction (
    String user1,
    String user2,
    long money,
    String accNum1,
    String accNum2 ) throws RemoteException
```

Implements [bankapp.server.IBManager](#).

Definition at line 53 of file BManager.java.

The documentation for this class was generated from the following file:

- [src/main/java/bankapp/server/BManager.java](#)

6.11 bankapp.server.IbankDAO Interface Reference

Inheritance diagram for bankapp.server.IbankDAO:

Public Member Functions

- [Account](#) `getAccount` (String username)
- void `storeAccount` ([Account](#) acc)
- void `storeReport` ([Report](#) rep)
- void `deleteAccount` (String username)

6.11.1 Detailed Description

Definition at line 4 of file IBankDAO.java.

6.11.2 Member Function Documentation

6.11.2.1 `deleteAccount()`

```
void bankapp.server.IbankDAO.deleteAccount (  
    String username )
```

Implemented in [bankapp.server.bankDAO](#).

6.11.2.2 `getAccount()`

```
Account bankapp.server.IbankDAO.getAccount (  
    String username )
```

Implemented in [bankapp.server.bankDAO](#).

6.11.2.3 `storeAccount()`

```
void bankapp.server.IbankDAO.storeAccount (  
    Account acc )
```

Implemented in [bankapp.server.bankDAO](#).

6.11.2.4 `storeReport()`

```
void bankapp.server.IbankDAO.storeReport (  
    Report rep )
```

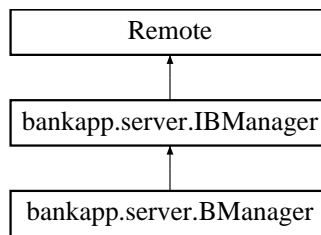

Implemented in [bankapp.server.bankDAO](#).

The documentation for this interface was generated from the following file:

- src/main/java/bankapp/server/[IBankDAO.java](#)

6.12 bankapp.server.IBManager Interface Reference

Inheritance diagram for bankapp.server.IBManager:

Public Member Functions

- char [login](#) (String user, String pass) throws RemoteException

6.12.1 Detailed Description

Definition at line 6 of file IBManager.java.

6.12.2 Member Function Documentation

6.12.2.1 addFunds()

```
void bankapp.server.IBManager.addFunds (
    String user,
    String accNum,
    long money ) throws RemoteException
```

Implemented in [bankapp.server.BManager](#).

6.12.2.2 createBankAccount()

```
int bankapp.server.IBManager.createBankAccount (
    String user ) throws RemoteException
```

Implemented in [bankapp.server.BManager](#).

6.12.2.3 createUser()

```
void bankapp.server.IBManager.createUser (
    String username,
    String pass,
    String email ) throws RemoteException
```

Implemented in [bankapp.server.BManager](#).

6.12.2.4 deleteAccount()

```
void bankapp.server.IBManager.deleteAccount (
    String user ) throws RemoteException
```

Implemented in [bankapp.server.BManager](#).

6.12.2.5 deleteBankAccount()

```
void bankapp.server.IBManager.deleteBankAccount (
    String user,
    String accNum1,
    String accNum2 ) throws RemoteException
```

Implemented in [bankapp.server.BManager](#).

6.12.2.6 login()

```
char bankapp.server.IBManager.login (
    String user,
    String pass ) throws RemoteException
```

Implemented in [bankapp.server.BManager](#).

6.12.2.7 transaction()

```
void bankapp.server.IBManager.transaction (
    String user1,
    String user2,
    long money,
    String accNum1,
    String accNum2 ) throws RemoteException
```

Implemented in [bankapp.server.BManager](#).

The documentation for this interface was generated from the following file:

- long [getMoney](#) ()

6.14.1 Detailed Description

Definition at line 7 of file Report.java.

6.14.2 Constructor & Destructor Documentation

6.14.2.1 Report() [1/3]

```
bankapp.server.Report.Report (
    String user1,
    String user2,
    long money,
    String accNum1,
    String accNum2 )
```

Definition at line 18 of file Report.java.

6.14.2.2 Report() [2/3]

```
bankapp.server.Report.Report (
    String user1 )
```

Definition at line 29 of file Report.java.

6.14.2.3 Report() [3/3]

```
bankapp.server.Report.Report (
    String user1,
    String accNum1,
    long money )
```

Definition at line 36 of file Report.java.

6.14.3 Member Function Documentation

6.14.3.1 getAccNum1()

```
String bankapp.server.Report.getAccNum1 ( )
```

Definition at line 54 of file Report.java.

6.14.3.2 getAccNum2()

```
String bankapp.server.Report.getAccNum2 ( )
```

Definition at line 57 of file Report.java.

6.14.3.3 getId()

```
int bankapp.server.Report.getId ( )
```

Definition at line 60 of file Report.java.

6.14.3.4 getMoney()

```
long bankapp.server.Report.getMoney ( )
```

Definition at line 63 of file Report.java.

6.14.3.5 getReportType()

```
String bankapp.server.Report.getReportType ( )
```

Definition at line 45 of file Report.java.

6.14.3.6 getUser1()

```
String bankapp.server.Report.getUser1 ( )
```

Definition at line 48 of file Report.java.

6.14.3.7 getUser2()

```
String bankapp.server.Report.getUser2 ( )
```

Definition at line 51 of file Report.java.

The documentation for this class was generated from the following file:

6.15 bankapp.server.ReportTest Class Reference

Public Member Functions

- void [validReport](#) ()

6.15.1 Detailed Description

Definition at line 8 of file ReportTest.java.

6.15.2 Member Function Documentation

6.15.2.1 validReport()

```
void bankapp.server.ReportTest.validReport ( )
```

Definition at line 11 of file ReportTest.java.

The documentation for this class was generated from the following file:

- src/test/java/bankapp/server/[ReportTest.java](#)

6.16 bankapp.client.RMIServiceLocator Class Reference

Public Member Functions

- void [setService](#) (String ip, String port, String serviceName)
- boolean [login](#) (String user, String pass)

6.16.1 Detailed Description

Definition at line 8 of file RMIServiceLocator.java.

6.16.2 Member Function Documentation

6.16.2.1 login()

```
boolean bankapp.client.RMIServiceLocator.login (
    String user,
    String pass )
```

Definition at line 21 of file RMIServiceLocator.java.

6.16.2.2 setService()

```
void bankapp.client.RMIServiceLocator.setService (
    String ip,
    String port,
    String serviceName )
```

Definition at line 12 of file RMIServiceLocator.java.

The documentation for this class was generated from the following file:

- void [addAccount](#) ([bankAccount](#) acc)
- String [getEmail](#) ()
- void [setEmail](#) (String email)
- void [deleteAccount](#) (String accNum)
- [bankAccount](#) [getAccount](#) (String accNum)

6.18.1 Detailed Description

Definition at line 7 of file User.java.

6.18.2 Constructor & Destructor Documentation

6.18.2.1 User()

```
bankapp.server.User.User (
    String username,
    String pass,
    String email )
```

Definition at line 12 of file User.java.

6.18.3 Member Function Documentation

6.18.3.1 addAccount()

```
void bankapp.server.User.addAccount (
    bankAccount acc )
```

Definition at line 28 of file User.java.

6.18.3.2 addFundstoAccount()

```
void bankapp.server.User.addFundstoAccount (
    String accNum,
    long money )
```

Definition at line 20 of file User.java.

6.18.3.3 createAccount()

```
int bankapp.server.User.createAccount ( )
```

Definition at line 23 of file User.java.

6.18.3.4 deduceAccountFunds()

```
void bankapp.server.User.deduceAccountFunds (
    String accNum,
    long money )
```

Definition at line 17 of file User.java.

6.18.3.5 deleteAccount()

```
void bankapp.server.User.deleteAccount (
    String accNum )
```

Definition at line 37 of file User.java.

6.18.3.6 `getAccount()`

```
bankAccount bankapp.server.User.getAccount (
    String accNum )
```

Definition at line 40 of file User.java.

6.18.3.7 `getEmail()`

```
String bankapp.server.User.getEmail ( )
```

Definition at line 31 of file User.java.

6.18.3.8 `setEmail()`

```
void bankapp.server.User.setEmail (
    String email )
```

Definition at line 34 of file User.java.

The documentation for this class was generated from the following file:

- `src/main/java/bankapp/server/User.java`

6.19 bankapp.server.UserTest Class Reference

Public Member Functions

- void `validUser` ()
- void `testAddFunds` ()
- void `testTransaction` ()

Static Protected Attributes

- static Validator `validator`

6.19.1 Detailed Description

Definition at line 12 of file UserTest.java.

6.19.2 Member Function Documentation

6.19.2.1 testAddFunds()

```
void bankapp.server.UserTest.testAddFunds ( )
```

Definition at line 35 of file UserTest.java.

6.19.2.2 testTransaction()

```
void bankapp.server.UserTest.testTransaction ( )
```

Definition at line 43 of file UserTest.java.

6.19.2.3 validUser()

```
void bankapp.server.UserTest.validUser ( )
```

Definition at line 23 of file UserTest.java.

6.19.3 Member Data Documentation

6.19.3.1 validator

```
Validator bankapp.server.UserTest.validator [static], [protected]
```

Definition at line 14 of file UserTest.java.
